CSCI-UA.0002: Introduction to Computer Programming
Instructor: Joel Kemp
Homework 1 – Background information

Please address the above points in paragraph form. This assignment will give me information about your background and needs.

1. Your Name
2. Major at NYU
3. How programming relates to your field or why you're interested in programming.
4. Comfort level with computers (e.g.: Have you taken one apart? Do you only check email and the Internet? Any HTML experience?)
5. Which of the following do you feel contributes the most to your learning: textbook reading, chalkboard instruction, PowerPoint presentations, or homework?
6. One random fact or hobby.

Please attach a photo of yourself to the email submission.

Submission
The submission should be at least half of a page in length.
