Assignment 4.5:
Creating a form within an HTML page and submitting it to a CGI Script.

Due Wednesday February 14, 2001. 11:59 PM

Recreate the web page shown on this link:
http://cs.nyu.edu/courses/spring01/V22.0380-003/html/assignment4.5/australia.jpg

You do not have to re-type the text. You can get the text from this link here:
http://cs.nyu.edu/courses/spring01/V22.0380-003/html/assignment4.5/australia.txt

You can download the images from here:
http://cs.nyu.edu/courses/spring01/V22.0380-003/html/assignment4.5/image_03.jpg

http://cs.nyu.edu/courses/spring01/V22.0380-003/html/assignment4.5/image_03.jpg

On the bottom of a web page you should recreate the form. This should be a fully functioning form that submits to a CGI script.

Use the following specifications for the form:

METHOD="POST"
ACTION="http://i5.nyu.edu/cgi-bin/cgiwrap/arr5400/formmail.pl"

HIDDEN fields:
RECIPIENT, VALUE="NetID@nyu.edu"

For the STATE field, yes, you must list every state and Puerto Rico. You may, however abbreviate the states with the standard two-letter abbreviation if you wish. Check out http://www.usps.gov for a list of states.

Handing in the assignment:

Upload your assignment to your i5 account. E-mail me (rutledge@cs.nyu.edu) the link to this assignment when you're finished. Make sure there is a link to this assignment from the index page you created in for assignment 3.5. Also link this page from the Assignment 3 & 4 where it says, "Sydney, Australia"

Double check your HTML to be sure you've written correct syntax. Using BBedit, use the "Check Syntax" option to view your errors. If you're using Homesite for the PC use, "Validate Document" to check for errors. You may ignore the "Depreciation" errors in Homesite.

You must be finished this assignment and have sent me the e-mail by Wednesday February 14, 2001. 11:59 PM
