Extra Credit
An opportunity to earn 20 points extra credit
Due Monday February 26, 2001, in Class

What are your favorite web sites? Select five web sites you think are examples of good design or web sites that function well. List each of the URLs and describe in detail why you picked that particular site. For each site you pick be sure to answer the following questions:

What kind of web site is this?
i.e. Portal, E-commerce, Personal web site, etc.

What is the target audience for this web site?

What are the best and worst aspects of this site?

Can you find the information you need from this site?

Is the information provided on this site useful?

If you designed this site, what would you do differently?

What makes this site better than others you've seen?

Bring this extra credit to class on Monday February 26. You will present your findings in front of the class.
