Course G22.2250

Operating Systems Design

Spring 1999

Malcolm C Harrison & Krishna Palem

Computer Science Department
New York University
These slides were designed for use as a supplement to the text “Operating Systems Principles” by Silberschatz & Galvin, published by Addison Wesley. The initial version of these notes was written by Krishna Palem in Fall 95, and modified by Malcolm Harrison in Spring 96 and Fall 96.
