

Local Linear Convergence of Alternating Projections

Adriana Nicolae

joint work with Adrian Lewis and Genaro López-Acedo

Workshop in honor of the 60th Birthday of Adrian Lewis
Seattle, 9–10 August, 2022

In this talk we discuss some local geometric features which, imposed on two closed sets, allow us to prove even in nonlinear settings the local linear convergence of the method of alternating projections for finding a point in the intersection of the two sets.
