Homework 3

Please submit your solutions via NYUClasses. Solutions to programming exercises should be submitted as plain text files. No exotic formats, please!

The deadline for Homework 3 is February 24, before class.

Sequential Consistency, Linearizability, and Weak Memory Models (25 Points)

- AMP, p. 66: Exercise 24. You only need to consider sequential consistency and linearizability, but not quiescent consistency. (**12 Points**)

- AMP, p. 67: Exercise 27 (**7 Points**)

- AMP, p. 67: Exercise 28 (**6 Points**)
