Poitiers, 24 March 2010

Mr. Dennis Shasha,

As part of a research for internship during the period June-August 2010, I allows me to address you.

Student in 3rd year of Bachelor of Physiological Engineering and Computer Science, from the Biology-Pole, Faculty of Health Sciences, Poitiers, I destine me for a career in the pharmaceutical industry.

It is natural that I turn to your prestigious university.

I could during my internship at NYU's Computer Science Department practice my acquired of my training as creating databases, websites or laboratory work and also improve my English.

With its dual skill as a biologist and computer scientist, my education also allows me to adapt quickly to new projects and answer needs of biologists or computer specialists.

New York University allow myself to discover a laboratory to the logistic and technical high levels, enrich my professional experience and discover a country and a culture that I love long ago.

Pending a response from you, I am at your disposal for an interview or for further information.

Please accept, Sir, the assurance of my highest consideration.

GODET Benjamin.
