12p – 1.20p	Discussion

– End of Workshop –

Thank you for your participation!

GUIDELINES OF TALKS

Talks are 15 minutes long at most. Feel free to give a shorter talk, if you wish. Each speaker is budgeted 20 minutes in order to allow for the time needed between speakers, and for setting up power point, etc. There will be no Q and A section immediately following each talk. Discussion and questions will take place during the discussion period at the end of each session.

If you plan on passing out handouts for your talk, we recommend that you make approximately 50 copies.

We intend to arrange for a data/video projector to be available for all sessions. Please let Amy Wong (amywong@nyu.edu) know if you have any special equipment need.
