Scope. Papers in all areas related to combinatorial pattern matching and its applications will be considered, including, but not limited to,

- Bioinformatics
- Coding and data compression
- Computational biology
- Data mining, information retrieval
- Natural language processing
- Pattern discovery
- String algorithms
- String processing in databases
- Symbolic computing
- Text searching

Submissions. Both papers reporting on original research unpublished elsewhere and surveys of important results are welcome. Simultaneous submissions are not allowed. Please submit your extended abstract not exceeding 10 single-spaced pages on A4 paper, including references, figures, title, authors, affiliations, e-mail addresses, and a short (one paragraph) abstract at the conference website. Please use the LATEX style file at the conference website.

The proceedings will be published in the Springer-Verlag series, Lecture Notes in Computer Science.

Submission Deadline: Jan 11, 2010
Author Notification: Mar 8, 2010
Final Version Due: Mar 26, 2010
