

1 year Post-doc position open in Gene Regulatory Network (GRN) learning (Montpellier FRANCE).

Mentors Andre Mas (I3M-UM2), Gabriel Krouk (CNRS).

The computer scientist candidate should have a strong interest and experience in using Math to solve biological problems. Ideally the candidate should be able to transfer R scripts into C or C++ in order to adapt algorithms to very intensive calculation processes. Skills in machine learning and/or supervised clustering as well as basic knowledge in GRN will be appreciated.

Email : andre.mas@univ-montp2.fr, gkrouk@gmail.com

For application join before June, 16th : **CV + cover letter + 2 letters of recommendation**
