

Merck Meeting Attendees

Friday, March 28th

10am to 11:30am

719 Broadway, 1221

Sanjoy Ray

Interests

- Next generation IT
- Health IT strategy
- "A priority focus is to identify and adaptively update the linkages between desirable health outcomes and the key enablers which underlie them, both in the form of the emerging capabilities from innovative IT, and of the new opportunities which are arising continually from both the breath-taking pace of scientific discovery and the advent of novel health information"

Merck - Director, Strategic Alliances & Health Innovation (June 2013 - Present)

- Extend Health IT Strategy focus on real world health information to include a deeper focus on next-generation information capabilities, and a new focus on cross-organizational strategic alliances which maximize the assets and strengths of all partners to co-create novel products & markets.
