

NeyMelo

Resume

Ney is an internationally renowned Argentine tango instructor since 2004 and is regularly invited around the world to share his professional and artistic insight into the world of tango. Some of his recent work includes touring Europe with Virginia Pandolfi and teaching at the World Tango Festival in Finland. He also regularly teaches at major festivals in the United States. And the best part is: he is a whole lot of fun. The atmosphere in his classes is relaxed, personable and lively, and he places equal emphasis on the lady's role as the man's. Technique and the essence of tango, both fundamental to dancing well, are stressed in whatever step is being shown. Ney is dedicated to inspiring students to dance tango with feeling, musicality, cadencia, and connection – the way it is danced in Buenos Aires.
