Title of Work:

Author(s):

Paper ID: Research Industrial Demo

TRANSFER OF COPYRIGHT AGREEMENT

Copyright to the above work (including without limitation, the right to publish the work in whole or in part in any and all forms of media, now or hereafter known) is hereby transferred to the ACM (*for Government work, to the extent transferable -see Part B below) effective as of the date of this agreement, on the understanding that the work has been accepted for publication by ACM. (Please note the joint author qualification under ACM Copyright Procedures elsewhere on this form. For the complete ACM Copyright Policy, see http://www.acm.org/pubs/copyright_policy.html)

However, each of the Employer/Author(s) retains the following rights:

1. All other proprietary rights to the work such as patent
2. The right to reuse any portion of the work, without fee, in future works of the Employer/Author's own,** including books, lectures and presentations in all media, provided that the ACM citation and notice of the Copyright are included (See Part A below).
3. The right to revise the work. (See §2.4 Definitive Versions and Revisions)
4. The right to post author-prepared versions of the work covered by ACM copyright in a personal collection on their own Home Page and on a publicly accessible server of their employer. Such posting is limited to noncommercial access and personal use by others, and must include this notice both embedded within the full text file and in the accompanying citation display as well, *i.e.*:

"© ACM, (YEAR). This is the author's version of the work. It is posted here by permission of ACM for your personal use. Not for redistribution. The definitive version was published in PUBLICATION, {VOL#, ISS#, (DATE)} <http://doi.acm.org/10.1145/nnnnnn.nnnnn>"

(Article DOIs are on their citation pages in the ACM Digital Library.)

5. The right of an employer who originally owned copyright to distribute definitive copies of its author-employees work within its organization. Posting these works for world access requires explicit permission from ACM.

A. ASSENT TO ASSIGNMENT

This Form must be signed by the author or, in the case of a "work made for hire," by the employer and must be received by ACM before processing of the manuscript for publication can be completed. (See Part D below)

Authors should understand that consistent with ACM's policy of encouraging dissemination of information, each work published by ACM appears with the ACM copyright and the following notice:

"Permission to make digital or hard copies of part or all of this work for personal or classroom use is granted without fee provided that copies are not made or distributed for profit or commercial advantage and that

copies bear this notice and the full citation on the first page. Copyrights for components of this work owned by others than ACM must be honored. Abstracting with credit is permitted. To copy otherwise, to republish, to post on servers or to redistribute to lists, requires prior specific permission and/or a fee."

I hereby warrant that I am the sole owner (or authorized agent of the copyright owner(s)), with the exception of third party material detailed in Part C below. Permission has been obtained for third party material included in this paper.

B. *DECLARATION FOR GOVERNMENT WORK

(See ACM Copyright Procedures at http://www.acm.org/pubs/copyright_form.html)

Note: Co-authors of government employees and subcontractors of the U.S. Government are also required to sign Part A.

A modified copyright statement regarding government use will appear on the published work.

C. Third-Party Material (See Policy, §2.1 Requirement for Copyright)

This copyright transfer applies only to the work as a whole, not to any embedded objects owned by third parties. An author who embeds an object, such as an art image that is copyrighted by a third party, must obtain that party's permission to include the object, with the understanding that the entire work may be distributed as a unit in any medium. The requirement to obtain third-party permission does not apply if the author embeds only a link to the copyright holder's definitive version of the object.

Third-party permission must be clearly stated near the object(s) or in the text narrative. Indicate below any third-party material included in this submission. Please be specific, i.e., type of material: figure, table, photo, music, video or other image, and note whether permission is approved (Y/N) and forwarded to ACM with your submission. (Use a separate sheet if additional space is required.)

	ACM reference	Third-party reference	Approved (Y/N)	Date
