Dear Eric,

Thanks for inviting me to advise on the Digital Discovery Lab project. It promises to have substantial educational value while being fun.

My work would not be possible or useful without the kinds of digital tools that are the focus of your project. so I think that putting such tools in the hands of young teenagers in middle school will stimulate their understanding and their problem solving abilities. I have enjoyed working with you on the Connections project, and I hope that we can continue to collaborate.

Best Regards,

Dennis Shasha
